JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

## GUATEMALA.

*Report from Livingston—Fruit port.*LIVINGSTON, GUATEMALA, *October 2, 1901.*

SIR: I have to make the following report of the conditions and transactions at this port during the week ended September 27, 1901:

Present officially estimated population, 3,000. Number of cases and deaths from yellow fever during the week, none; number of cases and deaths from smallpox during the week, none; number of cases and deaths from typhus fever during the week, none; number of cases and deaths from cholera during the week, none; number of cases and deaths from plague during the week, none; number of deaths from other causes during the month, 21. Prevailing diseases, malarial, which is unprecedented. It is wafted in the atmosphere for 8 or 9 miles distant. General sanitary condition of this port and the surrounding country during the week, with the exception of malaria, is good. No contagious or infectious disease exists.

Bill of health was issued to the following vessel: October 9, steamship *Esther*; crew, 18.

Respectfully,

W. K. FORT,

*Acting Assistant Surgeon, U. S. M. H. S.*

The SURGEON-GENERAL,

*U. S. Marine-Hospital Service.*
